

Lake County International  
Charter School

**Dear Parents**

**I hate to feel helpless.**

**But when I read the paper or watch the news on TV there is so much pain that's all I feel. I want to help, but it feels as if there is nothing I can do. Then I remember that is why I am so glad I am serving Lake County International Charter School. I know I can do something here.**

**Lake County International Charter School is a not-for-profit, tuition-free public, K-8 charter school. What that really means is that we teach children. And no matter how much people may say that many of these kids "can't be helped," LCICS helps them!**

**We have children who stretch the boundaries of abilities from the gifted, learning disabled, to developmentally delayed and everything in between. We have children who are hyperactive, refused to listen or cannot control their anger. We support them in a nurturing safe environment where everyone benefits from learning about each other, and benefits from learning how to function in the world of the 21<sup>st</sup> century where all of these children will grow up and participate in their future.**

**The LCICS staff is patient and works hard with every single student to take them from where they are to where they can go. They work with students to gain their trust by slowly drawing them to the realization that someone really cares about them, and will listen to them. That they can repair the harm given the opportunity. This realization can shake the foundation of a child's world. When that becomes their new reality one can see the lights come on and children begin to want to make the highest achievement level they can, whether they are gifted or challenged.**

**I hope you see why I love my work for LCICS! When I see miracles, I know that we are really helping. And LCICS has hundreds of students to help. Please open your hearts so we can.**

**Best wishes,  
Karl Reichman, Superintendent/Director**
